PROFESSIONAL SUMMARY

18 years of extensive and in-depth expertise in SAP-ABAP on ECC and S/4 Hana Platforms across different SAP modules such as FI/CO, SD, MM, PP, QM, WM, EWM and TM. Led implementation projects and maintained ABAP Technical support for IG such as consumer Goods, Foods and Beverages, Manufacturing and retail (IS-OIL). Specialized in Brownfields S/4 Hana migration projects.

KEY SKILLS

- ABAP-OO / RICEFW, Advanced ABAP development in ECC & S/4 Hana (up to Eclipse 3.52)
- Enhancement Framework – User exits, BADI'S and BTE's; Interfaces - Idoc's, BAPI, RFC
- Performance tuning & Extensive debugging skill
- Maintained OData Service & Postman tool, Json format data transfer
- SAP S/4 HANA Brownfield Migration & Greenfield Implementation
- Clean Core principles; CDS Views (Basic, Composite, Consumption); RAP; Maintained iFlows in CPI
- Technical Leadership/Escalation SPOC
- Regular Development activities like Effort estimation, technical design Spec Documentation, collaborating with cross functional teams, Unit Testing, Peer Code review according to best practices, Smoke test, cut-over activities.
- Agile and Waterfall Methodologies, Used Ticketing tools like CHARM, Clarity, Jira,
- SAP S/4 ABAP on HANA, SAP BTP Cockpit, Restful ABAP Programming, Fiori Bootcamp, SAP cloud CL400

WORK EXPERIENCE - HIGHLIGHTS

SAP Specialist	Maple Leaf Foods (Remote)	Nov 2019 – Present
• S/4 HANA Clean-Core initiatives 1. Refactored legacy custom code to standard-compliant solutions, replaced reports with coded push down technique. Created and used existing CDS views for better performance from S/4 Hana DB. 2. Restructuring Recipe Development processes using CPI Flows and BTP extensions - Pilot • FI Banking Project: Designed Manual Cheque, Cashed Cheque, CAFS, and Customer Invoice forms according to the new standards of the banking service provider (Accounts Receivable and Treasury teams) using Smartforms, SAP script, and Adobe Forms • Brownfield Migration Project: ECC to S/4 HANA 1909 & 2023 <i>Preparation & Assessment Phase:</i> SAP Simplification Check - Custom Code Analysis 1. Checked pre-requisite TCI notes and aided BASIS team to implement them. Executed report /SDF/RC_START_CHECK via SE38, to highlight items that will impact the conversion & the deprecated Functions. Also invoked by SUM but this report was run much ahead to get the system clean and ready for SUM phase. 2. Used ABAP Development Tools (ADT) and applied quick fixes with ABAP Test Cockpit (ATC) in Eclipse. Replaced the Open SQL queries with CDS views for FI Objects extensively		

Technical Conversion Phase:

1. Prior to SUM, carried on ABAP SPDD, SPAU and SPAU_ENH adjustments. Supported SUM/SAINT upgrades, collaborated closely with Basis and Security teams, and participated in smoke testing and cutover activities.

Hypercare Phase:

1. Fixed ABAP code issues caused due to mapping issues. E.g. EDI mapping mismatch for the MATNR field length expansion across SRM, APO, and TM systems.

- **Regular RICEFW Objects:**

1. Built **RF Gun ABAP programs for LM00 Tcode (SAP WM)** for the Bradford plant for the Order to cash cycle (Goods Receipt -> Goods Receipt reversal -> Goods Issue -> GI Reversal -> Shipping)
2. Created custom nodes in **/SCWM/MON** to enhance warehouse monitoring capabilities (**SAP-EWM**).
3. Resolved complex ABAP-EDI integration issues between SAP and external systems (OTC, IBP, TM, SRM) by analyzing and reconfiguring IDoc mappings in the outbound basic type IDocs processing routines- outbound DESADV **IDocs** for international shipment processing on ECC system
4. Maintained **OData services** for TM portal integrations for Shipping notifications. Maintained Web Proxies for SRM XML data transfer. Used Postman tool to test and check the data.
5. Rewrote **legacy ABAP data archival programs** (PBS to ILM) for tables like SD_VBAK, SD_VBRK, FI_DOCUMENT, and MM_MATBEL – ECC system.

- **Developed ABAP Reusable tools:**

1. Automated Inventory Tool - enhanced MB52 functionality with HU summary and live inventory visibility.
2. Developed a reusable ABAP OO job submission utility tool that enables users to export any custom report outputs in XLSX and CSV formats to presentation and application servers using binary data conversion technique.

SAP ABAP Consultant (Contract with IDC Technologies) Siemens, Toronto

Jun 2018 – Nov. 2019

- **J2S Project – Siemens**

Production & Engineering: Developed mass data programs (BAPI/BDC) for change number tracking and DIR uploads. Enhanced production transactions (CC01/02, CO02, COOIS, COHV) and built ALV reports for sales and BOM changes.

Finance (FICO): Enhanced customer statement program (RFKORD11) developed Smartforms for invoices and payment notices and created programs for journal entry and GL uploads (FB01/FB02).

- **Imall Interface Enhancements Project: (Agile Method – 2-week Sprint OTC cycle)**

Finance (FICO): Developed tools to update sales order line items for rebate claims and bank search strategies, automating MFN2 and MLFB updates for Imall Interface. Enhanced **financial programs** to support changes in profit center and division structures, improving financial reporting accuracy and compliance with organizational requirements using **BTE's and BADI's**.

Order to Cash (SD):

1. Modified Imall /Compass interface objects to handle new fields using BAPI_SALESORDERCRTFRMDAT2. Automated mass updates of sales & production order screens and their statuses while dynamically blocking production order components using STATUS_CHANGE_EXTERN and MD_RESET_KZEAR_RESB.
2. Designed a custom tool (ZIOMRESOLVE) to process **IDOCs** dynamically. Automated error resolution for failed IDOCs (invalid materials, unit mismatches, pricing errors) and reprocessed them via BAPI_SALESORDER_CHANGE. Created a **VOFM pricing routine** for ZMLC condition type based on sales office and order type. Enhanced Quotation (VA23) and Inbound Delivery (VL33N) **Adobe Forms** dynamically populate additional line-item data and terms based on sales/purchase organizations.

ABAP Team Lead

Accenture Solutions Pvt Ltd, Bangalore

Jan 2014 – Jan 2018

Greenfield Migration Project for Kirloskar Group: Led an ABAP team of size 5 responsible for the development of 170 ABAP objects for S/4 HANA on-premise implementation project. Facilitated client discussions for interface development and workflow technical solutions, providing expertise in SAP integration and project management.

Henkel – Maintenance:

Global Ownership of SAP Applications:

Served as Managed Service Owner (MSO) for PP, QM, and WM applications across EMEA, APAC, and NA regions. Managed production support and critical escalations within SLAs, coordinated with stakeholders and vendors, conducted weekly SLA reviews with client leadership, and led a team of 17–20 members including performance evaluations.

Strategic Process Improvements:

Spearheaded process optimization initiatives across 27 Managed Service Owners, introducing 3 innovative solutions that reduced effort by 140 man-days and improved project efficiency.

ABAP Module Lead

Mindtree Ltd, Bangalore

Aug 2011- Jan 2014

- Onsite maintenance support for Tata Global Beverages, handling PP RICEFW estimations, change requests, incident resolution, and facilitating L2 meetings with UK business teams.
- Onsite SAP implementations for Al-Ghanim and Unilever, leading data migration using BDC/BAPI for master and transactional data, and delivering enhancements across delivery, billing, and stock (OTC) processes.

Application Developer-ABAP

IBM, Bangalore

Jan 2007 – Aug 2011

- **Shell (Energy & Utilities, Oil and Gas Downstream) project** - ABAP Debugging, Performance Optimization for BW data extraction reports thus reducing runtime from 24 hours to just over 2 hours, IDOC processing and material document generation. Quality reviewed peer code, and developed technical specifications, ensuring adherence to best practices and performance benchmarks.
- Changes related to invoice memos, credit/debit memos, and purchase orders using SAP SCRIPTS and Smartforms for **SAP Implementation for Hitachi Metals** (Automotive Manufacturing).

PROFESSIONAL ACHIEVEMENTS & RECOGNITIONS

- *SME Activities:* Trained new hires in ABAP and contributed to the design of ABAP materials for new joiners at Accenture India.
- Won *ACE award* among PRODUCTS Industry group (Accenture) for resolving long pending complex issues and handling responsibilities outside the given role

EDUCATION

- Bachelor of Engineering in Electronics & Communication

Anna University, India
