

## PROFESSIONAL SUMMARY

SAP Technical Consultant with over 18 years of experience, including 8+ years of experience in S/4 HANA. Proven expertise in ABAP 7.4, Integration architecture, SAP Gateway services, and HANA database performance optimization. Adept at leading SAP implementation projects across manufacturing, retail, and consumer goods industries. A strong mentor and leader with experience in architecting and delivering solutions for SAP Implementations, Upgrades, Data Migrations, Middleware Integrations.

## KEY SKILLS

- SAP S/4 HANA Brownfield & Greenfield Implementation.
- ABAP 7.4 & ABAP OO RICEFW
- Restful ABAP Programming
- Integration with SAP PI, TM, SRM (data mapping with ECC)
- SAP OData Services, Proxy's
- Interfaces like IDOC's, Bapi's, RFC's
- Enhancement Framework
- Worked extensively in P2P (PP), OTC (SD, MM & EWM) and FICO
- ABAP for Data Archiving PBS to ILM
- SAP BTP Platform & CPI: SAP BTP services and CPI.
- Performance Optimization of FI extract report, Archiving tool ILM, BW Reporting
- Agile Methodologies: 3+ years of extensive experience in working on Sprints
- Technical Leadership: Proven ability to mentor and manage teams, driving innovation and fostering collaboration.
- Regular Development activities like Effort estimation, technical design Spec Documentation, collaborating with cross functional teams, Unit Testing, Peer Code review according to best practices, Smoke test, cut-over activities etc.
- Experienced in ticketing tools like CHARM, Clarity, Jira etc
- Worked with AI tools like Co-pilot, Joules, ChatGPT etc.

## WORK EXPERIENCE

SAP ABAP Developer (Permanent)      Maple Leaf Foods, Toronto      Nov 2019 – Present

*(In-house IT team – S/4 HANA 1909 to 2023 upgrades)*

- Developed and enhanced multiple SAP ABAP objects across SD, MM, FI/CO, WM, and TM modules, ensuring alignment with SAP Clean Core principles. Delivered both traditional RICEF developments and modern RAP/Fiori-based applications.
- Designed and modified **ABAP-SmartForms, SAPscript, and Adobe Forms**, including Manual Cheque, Cashed Cheque, CAFS, and Customer Invoice forms, during the transition between banking service providers for Accounts Receivable and Treasury teams.
- **Core ABAP developer for the S/4 HANA 1909** Brownfield Migration and subsequent upgrades (to 2023):

- Executed **ABAP SPDD/SPAU** adjustments, applied **ATC** Quick Fixes, and resolved syntax and performance inconsistencies caused by migration.
- Analyzed and implemented SAP Notes for converting the table like MATDOC and ACDOCA to suit SAP HANA version 1909; fixed ABAP code issues caused due to EDI mapping mismatch for the MATNR field length expansion across SRM, APO, and TM systems.
- Supported SUM/SAINT upgrades, collaborated closely with Basis and Security teams, and participated in smoke testing and cutover activities.
- Worked on **ABAP on S/4 HANA Clean-Core initiatives**, refactoring legacy custom code to standard-compliant solutions. Supported Recipe Development processes using SAP BTP-based extensions.
- Developed a Fiori Elements application using RAP (unmanaged save) for Purchase Order Release (Approve/Reject) functionality, leveraging standard BAPIs and modern ABAP RESTful Programming Model design patterns.
- Built **RF Gun (ABAP-WM) programs** for the Bradford plant, streamlining warehouse operations and creating custom nodes in /SCWM/MON to enhance warehouse monitoring capabilities.
- Resolved complex ABAP-EDI integration issues between SAP and external systems (OTC, IBP, TM, SRM) by analyzing and reconfiguring IDoc mappings in the outbound basic type IDocs processing routines- outbound DESADV IDocs for international shipment processing.
- Enhanced Web Service Proxy interfaces for TM portal integrations to improve reliability and data flow consistency.
- Rewrote **legacy ABAP data archival programs** (PBS to ILM) for tables like SD\_VBAK, SD\_VBRK, FI\_DOCUMENT, and MM\_MATBEL.
- Developed ABAP custom analytical tools:
  - Automated Inventory Tool - enhanced MB52 functionality with HU summary and live inventory visibility.
  - Reusable ABAP OO-based Job Submission Utility – enabled users to export results in XLSX/CSV formats to both Presentation and Application servers using advanced binary stream handling.

SAP ABAP Consultant (Contract with IDC Technologies) Siemens, Oakville

Jun 2018 – Nov. 2019

### **J2S Project – Siemens**

- Developed mass data tools (BAPI/BDC) for efficient parent-child change number tracking, DIR uploads, and ALV-based daily sales and BOM change log reporting.
- Enhanced SAP functionalities (CC01/02, CO02, COOIS/COHV) for production orders, BOM, and confirmations using BADIs, user exits, and performance tuning.
- Debugged and changed **Customer statements forms** using RFKORD11 for **AR**, created Customer invoices using smartforms and **Payment print** notice
- Created programs for **General Ledger** mass data upload for FB01/02 transaction codes; **Journal entries** data upload
- Automated workflows (ECM/ECR), pricing routines for order confirmations, and custom SAP Script for production orders.
- Streamlined HR processes by automating pay result data collection and CAT2/3/5/7/9 front-end screens.

### **Imall Interface Enhancements: (Agile Methodology – 2 week Sprint)**

- Enhanced sales order (SAPMV45A) to add "Market Facing Number" and "Vendor Number" fields in the item overview and additional data tabs. Updated VBAP structures and implemented BADI MV45AFZZ to ensure accurate data flow and storage.
- Developed tools to update sales order line items for rebate claims and bank search strategies, automating MFN2 and MLFB updates for Imall Interface. Modified Imall /Compass interface objects to handle new fields using BAPI\_SALESORDERCRTFRMDAT2 for OTC module. Built an interactive ALV report to manage sales and production order user status changes.

- Automated mass updates of sales and production order statuses while dynamically blocking production order components using STATUS\_CHANGE\_EXTERN and MD\_RESET\_KZEAR\_RESB.
- Designed a custom tool (ZIOMRESOLVE) to process IDOCs dynamically. Automated error resolution for failed IDOCs (invalid materials, unit mismatches, pricing errors) and reprocessed them using BDC (VA01) or BAPI\_SALESORDER\_CHANGE. Developed a log report to track error corrections and IDOC reprocessing through ALV.
- Created a VOFM pricing routine for ZMLC condition type based on sales office and order type.
- Enhanced Quotation (VA23) and Inbound Delivery (VL33N) Smart Forms to dynamically populate additional line-item data and terms based on sales/purchase organizations.
- Improved reporting by enabling email attachments in Excel and PDF formats.
- Played a key role in the **Re-Org 2020 project** for Siemens, enhancing financial programs to support changes in profit center and division structures, improving financial reporting accuracy and compliance with organizational requirements.

ABAP Team Lead (Permanent)      Accenture Solutions Pvt Ltd, Bangalore      Jan 2014 – Jan 2018

- Led the ABAP on S/4 HANA on-premise implementation project for the Kirloskar Group. Facilitated client discussions for interface development and workflow technical solutions, providing expertise in SAP integration and project management.
- Managed a team of size 5, responsible for the development of 170 ABAP objects, ensuring on-time delivery, rigorous quality control, and optimal alignment with strategic business needs.

#### Global Ownership of SAP Applications:

- Served as Managed Service Owner (MSO) for PP, QM, and WM applications across EMEA, APAC, and NA regions. Led escalation management for live production systems, addressing critical issues under tight SLAs and coordinating with business stakeholders, third-party vendors, and plant managers to ensure uninterrupted operations. Conducted weekly SLA reviews with client leadership to track performance and drive continuous improvement.

#### Leadership and Team Development:

- Directed a team of 17-20 members, conducting comprehensive performance appraisals to assess and enhance individual contributions. Fostered a high-performance culture through mentorship, skill development, and constructive feedback, enabling consistent delivery of high-quality solutions within challenging timelines.

#### Strategic Process Improvements:

- Spearheaded process optimization initiatives across 27 Managed Service Owners, introducing 3 innovative solutions that reduced effort by 140 man-days and improved project efficiency.

ABAP Module Lead (Permanent)      Mindtree Ltd, Bangalore      Aug 2011- Jan 2014

- Maintenance Project for **Tata Global Beverages** (Client place Onsite) Production Planning RICEFW estimations, change requests, and incident resolution, while facilitating L2 meetings with UK business leaders to ensure alignment, transparency, and seamless project delivery.
- **SAP Implementation for Al-Ghanim** (Client place Onsite, Middle East) Migrated live data into production systems using BDC and BAPI for Material Master, service orders, and business partner updates as Data migration expert. **SAP Implementation Pilot for Unilever** Data migration and conversion for Unilever's SAP IS-RETAIL implementation for customer, salesman, and service master data using BAPI's. Custom enhancements to streamline delivery, billing, and stock processes ( **Order to case cycle** OTC)

Application Developer-ABAP (Permanent)

IBM, Bangalore

Jan 2007 – Aug 2011

- **Shell (Energy & Utilities, Oil and Gas Downstream) project** - ABAP Debugging, Performance Optimization for BW data extraction reports thus reducing runtime from 24 hours to just over 2 hours, IDOC processing and material document generation. Quality reviewed peer code, and developed technical specifications, ensuring adherence to best practices and performance benchmarks.
- Changes related to invoice memos, credit/debit memos, and purchase orders using SAP SCRIPTS and Smartforms for **SAP Implementation for Hitachi Metals** (Automotive Manufacturing).

## PROFESSIONAL ACHIEVEMENTS & RECOGNITIONS

---

- *Reduction of Person-Days Effort*: Led performance tuning initiatives that reduced the runtime of long-running BW extraction reports from 24 hours to just 2 hours and 42 minutes, delivering immense value to the client by streamlining data operations.
- *SME Activities*: Trained new hires in ABAP and contributed to the design of ABAP materials for new joiners at Accenture India.
- Won *ACE award* among PRODUCTS Industry group (Accenture) for resolving long pending complex issues and handling responsibilities outside the given role

## SAP TRAINING ATTENDED

---

- *SAP S/4 ABAP on HANA*
- *SAP BTP Cockpit*
- *Restful ABAP Programming*
- *Fiori Bootcamp*

## EDUCATION

---

- Bachelor of Engineering in Electronics & Communication

Anna University, India
